TEEN TECH PROGRAM

WHERE TECHNOLOGY MEETS OPPORTUNITY

The Teen Tech Program equips blind and low vision students with essential technology skills for academic and career success. We guide teenagers 14-18 toward proficiency in both assistive technologies and mainstream software applications, preparing them to confidently pursue higher education and unlock meaningful employment opportunities.

✓ **Comprehensive Training:**
Master essential software applications and assistive technologies

Assistive Software
JAWS ZoomText FUSION

Internet Browsing
Chrome, Firefox, Microsoft Edge

Microsoft Windows Environment
Outlook, Word, Excel & PowerPoint

✓ **Personalized Guidance:**
Small class sizes ensure individualized attention and support

✓ **Empowering Independence:**
Students can explore their strengths, interests, and career goals
